

# Flossom — User Guide

A friendly walkthrough of every Flossom feature, with Free and Pro clearly split so you know exactly what you get.

## Welcome

Flossom keeps your thread stash, projects and shopping list perfectly in sync. This guide walks through every section of the app and shows what's included on **Free** and what's unlocked on **Pro**.

## Quick start

### *1. Build your stash*

Open Stash and add what you own — pick from a brand catalogue or add a custom thread.

### *2. Create a project*

Open Projects → New, add the threads your pattern needs and set the quantity for each.

### *3. Check your shopping list*

Flossom compares your stash to your projects and tells you exactly what to buy.

### *4. Stitch and update*

Mark threads as you use them — your stash and shopping list stay in sync automatically.

## Features, section by section

### Your Stash

Your stash is your personal thread drawer — every skein, bobbin and loose strand you own, all in one tidy place.

FREE

- Add unlimited DMC and Anchor threads from the full catalogues (yes, even discontinued colours).
- Create custom threads for hand-dyed or off-brand floss.
- Add notes and tags to any thread (e.g. “gift from Mum” or “low stock”).
- Adjust quantities as you stitch — Flossom remembers the rest.

WITH PRO

- Unlock all 54 extra brand catalogues — Madeira, Venus, Weeks Dye Works, Kreinik and more.
- Use the colour picker and live camera scanner to identify thread colours on the fly.
- Find cross-brand substitutes when your favourite colour is missing or discontinued.
- Export and import your whole stash as a CSV — perfect for backups or sharing.

### Projects

Projects are where your patterns live. Add the threads each pattern needs and Flossom tells you what you're short on.

FREE

- Track 1 active project at a time.
- Add the threads your pattern needs and set the quantity per thread.
- See at a glance which threads you already own and which are missing.

WITH PRO

- Create unlimited projects — keep all your WIPs running side by side.
- Attach pattern photos and work-in-progress snaps to each project.
- Import thread lists straight from a screenshot or photo — OCR does the typing for you.

### Shopping List

Flossom compares your projects to your stash and builds a shopping list automatically — no spreadsheets required.

FREE

- Auto-generated list of exactly what you need to buy.
- Tick items off as you buy them; the list updates instantly.

#### WITH PRO

- See closest-colour alternatives across every brand for each missing thread.
- Get push alerts when a thread you use a lot runs low.
- Export your shopping list as a PDF or share it straight from the app.

## Tools

Handy calculators and converters that take the maths out of planning a project.

#### FREE

- Explore the Tools tab to see what's available.

#### WITH PRO

- Thread converter — swap between any of the 54 brands instantly.
- Fabric size calculator — work out the cloth you need for any design.
- Pattern size calculator — see how big your finished piece will be.
- Project time calculator — estimate how long a pattern will take you.
- Floss calculator — work out how many skeins to buy.

## Profile & account

Your account, your settings, your data. Everything syncs to the cloud so it's safe across all your devices.

#### FREE

- Cloud sync across web, iOS and Android — sign in anywhere.
- Edit your display name and account details any time.
- Delete your account and data whenever you want, no questions asked.

#### WITH PRO

- Manage your subscription and billing straight from your profile.
- Download a CSV backup of your entire stash for safekeeping.

## Tips & shortcuts

- Pro tip: snap a photo of your pattern's thread list and let OCR fill it in for you.
- Closest-colour matching uses real RGB values — handy when a code has been retired.
- Pro unlocks every brand, every project and every shortcut — try it free for 14 days.
